Software Developer with strong skills in Python, JavaScript, SQL, and REST APIs. Experienced in building full-stack web applications, writing clean and maintainable code, and collaborating in agile environments. Passionate about solving real-world problems using scalable software solutions and modern development practices.

Skills

Programming Languages: Python, JavaScript, SQL, C++

Web Technologies: HTML, CSS, React.js, Node.js, Express.js, REST APIs

Developer Tools: Git & GitHub, VS Code, Postman, npm

Core Skills: OOP, Problem Solving, Debugging, Data Structures, Algorithms

Experience

Software Developer Intern

April 2025 – June 2025

Dataview Analytics (Remote)

Tech: Python, JavaScript, SQL, REST APIs

- Developed internal automation scripts using Python that reduced repetitive manual work by **35% per week**.
- Built RESTful API endpoints using Node.js & Express to handle data retrieval and validation.
- Created dynamic UI components using React.js to display real-time performance metrics.
- Collaborated with a team of 4 developers and 2 managers to deliver 3 production-ready features.

Projects

Task Manager Web App | *React.js, Node.js, MongoDB*

March 2025 – April 2025

- Built a full-stack task management system with authentication, task creation, reminders, and filters.
- Implemented JWT authentication and secure password hashing with bcrypt.
- Developed 12+ REST API routes for tasks, users, and analytics.
- Optimized database queries, improving load time by **25%**.

Health Dashboard | *Python, Flask, SQL*

February 2025 – March 2025

- Built an analytics dashboard to track orders, inventory, and customer activity.
- Designed backend logic to aggregate 30K+ records across multiple tables.
- Created charts using Chart.js and implemented responsive UI components.
- Improved API response time by **18%** by optimizing queries.

Awards & Certifications

- **Python for Everybody – Coursera (2024):** Covered OOP, data structures, and application development.
- **JavaScript (Intermediate) – HackerRank (2024):** Ranked in top performers for algorithmic challenges.
- **Best Final Year Project – 2025, Marwari College:** Built a college management tool using React, Node.js, and SQL.

Education

B.E. Information and Technology

2024 – 2027

BMS Institute of Technology, Karnataka
